

Case Study

Radcliffe Remediation, Bury,

Client	Property Alliance Group
Value	£5,000,000
Service	Procurement / Project Control / Cost Control & CDM Coordination

Remediation of an existing 27 acre industrial site to create a suitable platform for both residential and light industrial developments. The project will include removal of Japanese Knotweed, excavation and crushing of existing substructures, earthworks to the bank of the river Irwell and excavation and filling of the site with internal and external material
